DETAILED ACTION

1. Claims 1 – 20 are allowed.

The following is an examiner's statement of reasons for allowance:

Prior art of record does not disclose, in single or in combination, forming at least a transport format combination, which combinations denote the transport blocks to be transmitted over each transport channel, forming a reduced number of transport format combinations by selecting, for each logic channel, a number of transport formation combinations which permit the highest number or more than the highest number of available packet data units to be transmitted, while taking stored packet data units into account of already considered logic channels which are also mapped onto the same transport channel, and from the reduced number of transport format combinations the transport format combination that contains the lowest number of transport blocks and does not include inactive transport channels in combination with other limitations of claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
